There's a new frequency of oneness emerging in humanity today and it's creating a new paradigm of living. This frequency is bringing a great healing in which Heaven and Earth, masculine and feminine, spirituality and practicality are brought together. How we embrace this new evolutionary impulse in our own lives is crucial to the kind of future we create. We can choose to be passive observers of the drama of our lives or we can choose to be Active Agents of Change by unlocking our true power. Inner transformation is the key to outer change and, in this talk, Amoda Maa Jeevan presents the 2 Golden Keys that unlock this power and how we can become Active Agents of Change in our own lives and in the world. She also shares the vision she experienced that holds the key to humanity's collective transformation and how this vision belongs to each and every one of us.
