

## THE SHIFT – HEALING OUR PAST AND CO-CREATING OUR COSMIC DESTINY

As we move towards 2012, a tidal Shift in our personal and collective awareness is gathering pace. This evolutionary leap of consciousness is enabling us to access higher spiritual aspects of ourselves through the portal of the 8<sup>th</sup> chakra of the universal heart and the opportunity to heal ancient schisms within and between ourselves. And as co-creators, we have the choice to envisage and intentionalize our cosmic destiny – and whether to do so from a basis of love or fear.

From early childhood, healer and cosmologist Dr Jude Currivan has ‘walked between worlds’ in service to planetary and collective healing. During these three experiential and empowering workshops she will share her understanding of the ‘bigger picture’ of the Shift, what it is re-discovering about our hidden heritage and revealing about our cosmic destiny – and what it means for every one of us.

In these workshops you will attune to the energies of the 8<sup>th</sup> chakra of the universal heart and the higher levels of transpersonal awareness that are now being activated to:

- \* Explore the bigger picture of the Shift and the significance of 2012 to understand why it is happening now and what it means for all of us

- \* Understand your personal and ancestral past and how to heal any unresolved issues

- \* Understand and heal the archetypal wounds that we carry on personal and collective levels

- \* Perceive the deeper causes and focus healing intention to specific areas of conflict around the world

- \* Learn how to align with the cosmic influences and flow of the Shift

- \* Directly connect with your higher self to understand your soul purpose in being here and now

- \* Balance your heart, mind and purpose in the universal heart to enable you to fully embody your cosmic destiny

***Please note that each workshop is stand alone and can be attended separately, but all three workshops complement each other in their overall theme.***
